Jackson M Mochumbe
Municipal Manager

NYAMIRA MUNICIPAL MANAGER
COUNTY GOVERNMENT OF NYAMIRA
LAND, HOUSING & URBAN DEVELOPMENT

**ENGAGEMENT ON THE PREPARATION OF THE NYAMIRA MUNICIPALITY
WASTE MANAGEMENT POLICY AT KIE NYAMIRA ON 8TH MAY 2019 FROM 9.00AM**

PRESENT

Department of Environment, Water & Natural Resources

Department of Lands, Housing & Urban Development

Representatives from the Municipality

Business Community, Jua kali Association, Women, Youth, Persons with disability and religious leaders

AGENDA

1. The status of waste management
2. Identification of needs for effective waste management

INTRODUCTION

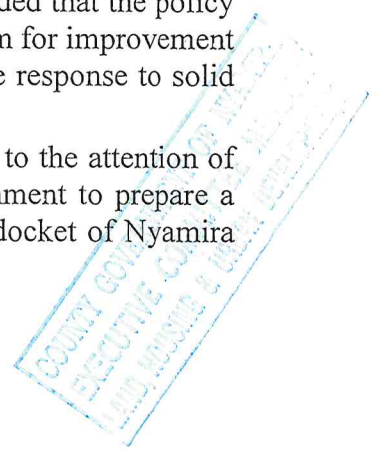

The Ag. Municipal Manager welcomed all the members and introduced the stakeholders in the meeting. The Chief Officer Environment highlighted on the agenda and encouraged participants to contribute towards the waste management policy

MIN 01/8/5/2019 STATUS OF WASTE MANAGEMENT

The Ag. Municipal Manager Mr. Onserio highlighted that the major challenge facing Nyamira Municipality is that of management of waste. With this in mind he noted that there was need for stakeholders to be involved to prepare a document that will act as a guide for effective waste management.

The Ag. Chief Officer Lands, Housing & Urban Development Mr Lamech added that the policy will be essential in service delivery and provide the Municipal Board a platform for improvement of the current waste management plans so as to enable authentic and suitable response to solid waste management challenges.

The Director Environment, Water & Natural Resources Mr. Gichana brought to the attention of members present that there was an initial plan by the department of environment to prepare a policy but the department was informed that waste management fell on the docket of Nyamira Municipality.

MIN 02/8/5/2019 IDENTIFICATION OF NEEDS FOR EFFECTIVE WASTE MANAGEMENT

Mr Mong'are a representative from Jua Kali association noted that the collection centres for waste did not have a clear way of separating waste and thus there was need to have separation bins.

The Ag. Chief Officer Environment, Water & Natural Resources Mr Thomas Nyariki responded that purchase of separation bins had taken long due to lack of adequate funding for the waste management kitty and hoped that the municipality will address the issue formally.

Mr Boflos from the business community spoke of the need to have adequate collection points so as to address littering that happens around the shopping areas and the Ag. Municipal Manager responded that plans were at an advanced stage on having other collection centres.

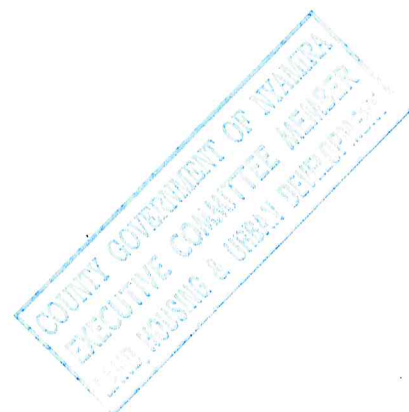

The Ag. Chief Officer Lands, Housing & Urban Development noted that the needs for effective solid waste management can be best addressed if the Municipality had a policy document and have adequate funding for waste management so as to cater for modern waste collection vehicles, a recycling plant and even the municipality to purchase land for its own dumping site as the current one is leased.

The Ag. Municipal Manager Mr. Onserio gave closing remarks noting that there was need to have continuous engagement of stakeholders on waste management to fully address any outstanding issues.

The meeting was closed at 1400h with a word of prayer from Mr. David
